Organisational Context			
<p>Territory Generation is a Government Owned Corporation that was formed in 2014. We produce the majority of the electricity to provide power to the people of the Northern Territory. Our vision is to be the Northern Territory's trusted and respected energy services business.</p> <p>Our actions, words and behaviours are guided by a core set of values that form the foundation of everything we do. Our values are Focus, Integrity, Respect, Safety and Teamwork (FIRST).</p> <p>We recognise that individually, our employees offer unique value and perspective and we are committed to a workplace that supports people from all backgrounds.</p>			
Employee Responsibilities			
You work as part of a team to safely and efficiently meet your agreed objectives which contribute to the shared vision for Territory Generation. You actively demonstrate the organisation's values and take accountability for your performance and behaviour. Key responsibilities include:			
Focus	<ul style="list-style-type: none"> • Demonstrates an awareness of the Vision and objectives of the Corporation. • Develops individual objectives and, where requested by direct supervisor, adjusts priorities to the needs of the business. • Tracks own performance in line with objectives on a regular basis. • Actively participates in performance reviews and feedback processes. • Remain self-disciplined and calm under pressure. 		
Integrity	<ul style="list-style-type: none"> • Demonstrate the organisation's values. • Conduct business in line with the values and high ethical standards – considers values in business interactions; • Ensures compliance with legal, governance and policy requirements; • Deliver on commitments – where commitments cannot be delivered on, communicates openly and honestly and sets new timelines for delivery. 		
Respect	<ul style="list-style-type: none"> • Takes accountability and responsibility for own actions; • Readily shares knowledge and expertise with others; • Actively supports the team and organisational goals; • Treats change and new situations as opportunities for learning and growth. 		
Safety	<ul style="list-style-type: none"> • Demonstrates safe working behaviours in order to achieve an incident free and safe workplace; • Develops personal safety objectives; • Challenges unsafe behaviours from team mates; • Monitors and takes ownership of own safety performance. 		
Teamwork	<ul style="list-style-type: none"> • Helps team mates feel valued and included in discussions; • Places higher priority on team than individual goals; • Shares important or relevant information with team or other affected stakeholders in a timely manner; • Speaks positively of team mates and other employees; • Focuses on personal growth and addresses development gaps which will help the achievement of performance goals. 		

Role Responsibilities			
<p>You will carry out routine maintenance of generation assets at the Owen Springs Power Station in Alice Springs on a day to day basis.</p> <p>Your accountabilities include:</p> <ol style="list-style-type: none"> 1. Conduct on-the-ground operations work, including routine plant inspections, minor equipment isolations, equipment lubrication, routine tests and identification, investigation and where possible rectification of plant defects. 2. Manage and investigate critical plant emergency incidents, complete plant failure/condition technical reports and efficiency assessments. 3. Undertake operational and technical commissioning tasks while working with engineering teams and other trades. 4. Establish and maintain effective working relationships with key stakeholders from a multi-disciplined workforce (Outage Planners, Operators, Mechanical Fitters, Contractors etc). 5. Liaise with contractors coming on site and manage relevant permits and contractor supervision to ensure the safe, reliable and efficient operation of the power station plant. 6. Work within Territory Generation's Safe Systems of Work (SSoW) processes and procedures. 7. Participate in an on call roster and travel to other stations when required. 8. Carry out duties in accordance with Territory Generation's safety, environmental and quality policy, safety principles, corporate values and strategies. 			
Selection Criteria			
Essential			
<ol style="list-style-type: none"> 1. Relevant AQF Cert III (Trade) mechanical qualifications. 2. Relevant instrumentation qualifications or equivalent skills, knowledge and experience. 3. Demonstrated ability to identify and rectify defects and abnormal operation conditions in plant and generate defect reports ensuring that information is accurate and of a high standard. 4. Demonstrated competence in the area of work place safety and commitment to safe work practices. 5. Demonstrated interpersonal and communication skills which result in effective team membership and contribution to work place objectives. 6. Sound ability to work in a Permit to Work system that ensures safety to all personnel and ability to work unsupervised yet still maintain constant interaction with operational staff. 7. Well-developed computer literacy. 8. Have or be able to obtain an NT drivers license and have the ability to participate in an on call roster. 9. Ability to carry out duties in accordance with Territory Generation's safety, environmental and quality policies and corporate values and strategies. 			
Desirable			
<ol style="list-style-type: none"> 1. Experience in large scale heavy industry environments.
