Organisational Context

Territory Generation is a Government Owned Corporation that was formed in 2014. We produce the majority of the electricity to provide power to the people of the Northern Territory. Our vision is to be the Northern Territory's trusted and respected energy services business.

Our actions, words and behaviours are guided by a core set of values that form the foundation of everything we do. Our values are **Focus, Integrity, Respect, Safety and Teamwork (FIRST).**

We recognise that individually, our employees offer unique value and perspective and we are committed to a workplace that supports people from all backgrounds.

Employee Responsibilities

You work as part of a team to safely and efficiently meet your agreed objectives which contribute to the shared vision for Territory Generation. You actively demonstrate the organisation's values and take accountability for your performance and behaviour. Key responsibilities :

Focus	• Demonstrates an awareness of the Vision and objectives of the Corporation. • Develops individual objectives and, where requested by direct supervisor, adjusts priorities to the needs of the business. • Tracks own performance in line with objectives on a regular basis. • Actively participates in performance reviews and feedback processes. • Remain self-disciplined and calm under pressure.
Integrity	• Demonstrate the organisation's values. • Conduct business in line with the values and high ethical standards – considers values in business interactions; • Ensures compliance with legal, governance and policy requirements; • Deliver on commitments – where commitments cannot be delivered on, communicates openly and honestly and sets new timelines for delivery.
Respect	• Takes accountability and responsibility for own actions; • Readily shares knowledge and expertise with others; • Actively supports the team and organisational goals; • Treats change and new situations as opportunities for learning and growth.
Safety	• Demonstrates safe working behaviours in order to achieve an incident free and safe workplace; • Develops personal safety objectives; • Challenges unsafe behaviours from team mates; • Monitors and takes ownership of own safety performance.
Teamwork	• Helps team mates feel valued and included in discussions; • Places higher priority on team than individual goals; • Shares important or relevant information with team or other affected stakeholders in a timely manner; • Speaks positively of team mates and other employees; • Focuses on personal growth and addresses development gaps which will help the achievement of performance goals.

Role Responsibilities

You will be responsible for the day to day management of the gas portfolio and transactions involved in keeping the gas portfolio in balance and capturing short-term trading value in the market. Operating at the front line of portfolio operations on a rotating on-call roster, you will be responsible for safeguarding system security while originating and executing transactions within the bounds of the Delegated Authority.

Your Accountabilities include:

1) Balance the gas portfolio daily across the 0–7 day horizon.
2) Issue, receive and validate gas supply, transportation and processing forecasts, nominations, scheduling advices and allocations.
3) Originate and execute short-term trading opportunities in line with operating procedures.
4) Undertake scenario modelling of short-term transactions to test the suitability of trades originated by you or other members of the team.
5) Build and maintain commercially productive relationships with supplier and customer counterparts.
6) Monitor and respond to planned and unplanned outages, defects, alarms and equipment limitations, escalating where operational, safety or commercial impacts arise.
7) Operate real-time energy trading and SCADA systems, partnering with internal generation operators and external suppliers and transporters to optimise asset availability.
8) Develop and maintain dashboards, reporting and analytical tools (Excel, VBA/macros, Python, SQL or similar) to monitor operational and commercial performance.
9) Carry out duties in accordance with Territory Generation's safety, environmental and quality policies, safety principles, corporate values and strategies.

Note: The successful applicant will be required to participate in an after-hours on-call roster.

Selection Criteria

Essential

1) Significant demonstrated experience in physical energy market trading and the day to day management of an energy portfolio and trading transactions.
2) Strong analytical and numerical capability, using data to support commercial decisions, with excellent attention to detail.
3) High level commercial and operational skills with the ability to connect physical asset conditions and constraints to financial performance.
4) Proficiency with Excel, VBA/macros, Python, SQL or similar technologies, and intermediate use of AI tools.
5) High level skills in managing commercial energy trading across multiple suppliers and customers.
6) Effective written and verbal communication and interpersonal skills, with an ability to interact effectively with different stakeholders and people of diverse cultures.
7) Expert knowledge of the Australian energy markets, gas trading or portfolio management and the relevant market rules.
8) Ability to prioritise and manage competing demands and deliver outcomes.
9) Ability to carry out duties in accordance with Territory Generation's safety, environmental and quality policy, safety principles, corporate values and strategies.

Desirable

Tertiary qualifications in economics, commerce, engineering or a related discipline.

FURTHER INFORMATION

The preferred candidate is required to undertake a pre-employment medical and employment is conditional on the outcome.
